

Enterprise IT & Information Security Policy

OFFICIAL POLICY DIRECTIVE

Section 1: Authentication and Passwords

Passwords must contain at least 12 characters, including at least one uppercase letter, one numerical digit, and one special character (!@#\$%^&*). Passwords must be updated every 90 days. Multi-Factor Authentication (MFA) via authenticator app is mandatory across all internal portals.

Section 2: Clean Desk and Device Locking

Laptops and workstations must be locked manually whenever left unattended. Screens will lock automatically after 5 minutes of idle inactivity. Storing or writing credentials on physical sticky notes or unencrypted text documents is strictly prohibited and subject to audit penalties.

Section 3: Software Installation & Endpoint Control

Employees are not granted local administrator access on company-issued hardware. All third-party desktop software, command-line utilities, browser plugins, and external developer tools must be requested and whitelisted through the internal IT Service Desk ticketing portal.

Compliance Notice: This document is subject to periodic governance review. Any deviations or exceptional approvals must be formally documented through the compliance workflow before execution.
